MÓJ LWÓW (1946)

MÓJ LWÓW

*To wszystko serce moje piastuje i pamięta
I jak tam chleb smakował i kędy rosła mięta,
Jak dusza tam się czuła radośnie wniebowzięta,
I jak ta ziemia droga, i jak jej pamięć święta.*

Leonard Podhorski-Okołów, *Ojcowizna*¹

uznać za rzeczywistość. Za rzeczywistość naszej duszy. A wtedy będzie już obojętne, czy Lwów był naprawdę taki, jakim go tu wspominamy, czy inny.

Słyszę głosy tysiąca cieni. Słyszę śmiech cieni: ludzi umarłych i ludzi żywych, ale tak już dalekich, że na pamięć naszą tylko cień rzucają. Wielu kształtów już nie rozpoznaję. Zatarły się w pamięci, zlały się z innymi w nieforemną, choć malowniczą masę.

Management

Good management involves the following:

- * Match food supply to the ability of the worms to use it.

Use TIP (but just
the tip)

Dear Martin,

I am very unhappy that you confiscated my letter to Josiah. Josiah is one of my ~~most~~ best friends ever. We know each other from the Vietnam war many years ago and he deserved to see that letter.

Please consider giving it back, or I will have to ~~ten~~ ^{take} with. And I think we both know that is not a good thing.

For larger operations, a rotating screen such as that illustrated will be needed, but again, it may be found useful to first allow most of the worms to separate themselves from the vermicompost as outlined above.

The impacts of classroom clutter

By Gemma Easton, Editor

Got a cluttered classroom? It could be having more of an impact on you and your students than you realise.

The Royal Australian College of General Practitioners reported that clutter can affect our ability to focus, anxiety levels, and even sleep. It can also make us less productive, and impact our cognition, emotions and subsequent behaviours, including our relationships with others.

Princeton University research found that clutter can impact a person's ability to focus, process information, and can in turn make them less productive and more stressed. One study found that clutter can be especially distracting

or benching with incorporated storage below. This provides a more efficient use of space and consolidated footprint."

A long, low seating tote trolley, for example, could include cushioned bench seating for students with pull out drawers underneath. Ottomans and couches can also incorporate storage, with a lift-up top for students and teachers to access items.

Lightweight bookcases and drawers on wheels will allow teachers and students to easily transport items between learning areas. This is particularly useful when moving heavy items, like a class set of books. Portable storage can also help to keep things neat, and may be useful for arts and activities, maths or

Popular educators can quickly and easily move their desk to any area of the classroom, and still use their laptop or other device comfortably at a desk. All items remain to hand, and the teacher will not have to keep returning to their desk. ▶

- Hello my name is Alex
- I HAVE worked in a bar and cafe
- but I want something closer to home
- I live

• I want to work somewhere that has a bit more structure

• I have heard a lot of good things on the job training ~~at home~~ that McDonalds gives people
 I like the potential for upward movement within McDonalds if that's where things go in the future

I hope to be considered for the roll
 Thank you

Dear Dan,

I am very unhappy with
what happened to me
this year. You got me
sick with your flute
and I had to stay
home for a week.

I lost lots of valuable
time because of that
and it made me
very unhappy. 😞
